lost our Rose List, please ask for it.*

WHOLESALE PRICE LIST

For members of the trade only.

Described in the following pages is a listing of our superior quality nursery stock reflecting nearly forty years of conscientious and intense effort to produce what we feel is the ultimate in landscape and garden center grade material. Our most sincere desire is to give prompt, reliable and consistent service to wholesalers and retailers regardless of location.

Due to the ever increasing demand for our stock we recently purchased an additional two hundred and ten acres of excellent land in Lake County. One hundred acres have already been tilled and planted with heavy liners and, in the not too distant future, finished material will be moving from this newest section to our customers for resale.

Our program of propagation, planting and subsequent care of stock, from the cutting, seedling, layer or graft to the finished product insures you that each piece is healthy, uniform as to grade, generous in size, and with the desired root system necessary for safe transplanting.

Your visit to inspect any or all of the stock offered will not only prove interesting and, we hope, beneficial but be a great pleasure for us.

TERMS AND CONDITIONS OF SALE

TERMS: Open account purchases will be made only to those with established credit. NEW CUSTOMERS who wish to open an account should furnish several trade references and allow sufficient time for their investigation before shipping date. If time does not permit this, local references easily reached by telephone, are necessary. Otherwise order must be accompanied by at least a 25% deposit guarantee and satisfactory arrangements completed for the balance before shipment is made. C. O. D. shipments or pick-up delivery on that basis also require a 25% deposit to insure acceptance of the order when ready. Interest will be automatically charged

Don't Settle For Less — Buy The Best — BUY KLYN'S!

at the rate of 6% per annum, computed monthly, on all past due accounts.

PRICES: All prices quoted are F.O.B. the nursery, Mentor, Ohio, and are subject to change without notice except in the case of orders already booked and acknowledged in which case the original figure, if lower, will apply. Boxes, baling or material of any sort needed to insure safe delivery will be charged at cost.

QUANTITY RATES:

10-24 pcs. one variety -----	10 rate
25-299 pcs. one variety -----	100 rate
300 or more pcs. one variety -----	1000 rate
Less than 10 of one variety add 10% to 10 rate.	

CERTIFICATION OF STOCK: All stock for sale in any current season is inspected and approved by the U. S. Dept. of Agriculture and the State Dept. of Agriculture and may be shipped to any part of the Nation.

CLAIMS: All orders acknowledged by us are accepted subject to crop yield and or any loss over which we have no control. "Last minute" telephone, telegraph and mail order requests cannot be given preference over orders already booked and delivery schedule arranged. In case of error in labeling we reserve the right to replace such stock as may be untrue to name and in any event we are not liable for any amount in excess of the purchase price.

REPORTS OF NURSERY STOCK

Received in an unsatisfactory condition or grade should be made immediately upon receipt of such material. No claims will be considered unless reported within 10 days after receipt of merchandise.

SHIPPING: Several reliable local truckers have available a fleet of dependable trucks for delivery of your nursery stock requirements at reasonable rates in either solid or split load quantities. Combination loads can generally be arranged especially if your order is received prior to shipping season. Generally speaking balled material cannot be shipped via regular commercial motor or rail freight in less than truck or car load lots due to the necessary costs involved for boxing or crating to insure safe delivery.

Don't Settle For Less — Buy The Best — BUY KLYN'S!

ALL GOODS TRAVEL AT THE PURCHASERS' RISK AND EXPENSE. All stock is in excellent condition when it leaves our nursery.

IF GOODS ARE DAMAGED IN ANY WAY, IN TRANSIT, CLAIM SHOULD BE MADE AT ONCE TO THE CARRIER AND WE SHOULD BE ADVISED AT THE SAME TIME.

ADVANCE NOTICE: Reasonable time should be allowed for preparation of all pick-up orders and your cooperation in completing delivery on schedule will be appreciated.

RHODODENDRON hybrids. (own root)

Because of the special care given our plants, from the time the cuttings are made until the finished product comes from the field, we have long been recognized as one of the leading growers of fine rhododendrons in this area. We are constantly striving to improve the quality of the parent plants of the older and better known varieties. Working

in close conjunction with Tony Shammarello we also hope, in the near future, to introduce some of his tried and tested hybrids which are most outstanding. Our own current saleable crop looks especially fine and we invite your personal inspection of the following named varieties: (Red) America, Caractacus, Dr. V. H. Rutgers, Edward S. Rand, Ignatius Sargent, Mrs. P. den Ouden, Nova Zembla, Van Werden Poelman. (Rose-lilac) Catawbiense Grandiflorum, English Roseum, Parsons Gloriosum, Parsons Grandiflorum, Roseum Elegans, Roseum Superbum. (White) Catawbiense Album, Cunningham. (Purple) Purple Splendor.

TAXUS

Our uniform quality and generous grading practice has long made "KLYN'S" a reliable source for this most sought after family of needle evergreens. In purchasing Taxus, more than any other type of nursery stock, the experienced buyer is more interested in quality than in price. Our carefully regulated propagation, transplanting, heavy shearing, fertilizing and cultivation program, plus careful uniform balling assure you of the type plants that can be sold at a maximum profit. DON'T settle for less!! "BUY the best—BUY KLYN'S."

Don't Settle For Less — Buy The Best — BUY KLYN'S!

LIGUSTRUM ovalifolium, California privet.

Probably the most common and popular form of deciduous hedging.

One year - row run 30.00 per M

No one hundred rate on this item.

2 yr. heavy branched

Container Grown Material

For a number of years we have been experimenting with container grown nursery stock, in an effort to make available certain items for year round planting. This year, for the first time, we feel we have progressed sufficiently to list certain items for your consideration. All varieties listed below have been in NURSERICANS for at least one growing season and were canned as rooted cuttings or from 2 year beds.

(Advise if we may furnish unbudded if budded not available).

LINING OUT STOCK

Much of the material listed below is designed for the nursery trade for planting out and growing on into finished material. On the other hand there are certain items that can very successfully be transferred from the beds to containers, especially in the spring, and offered as a cash and carry item in considerable volume. Please add 20c or 30c to all bare root prices for supplying such material in one gallon or two gallon NURSERIANS respectively.

AZALEAS Japanese hardy evergreen.

(See finished stock list for color description). These plants are 2 yr. old bedded stock of the same type as we have offered for the past several years. They are well branched with an excellent fibrous root system and ideal for field lining or canning for immediate garden center sale. The following varieties and sizes are available (subject to prior sale) at prices shown.

NEW INTRODUCTIONS

AZALEA DESIREE'

(Patent Applied For)

HARDY WHITE EVERGREEN AZALEA

This is the Azalea the Nursery World
has been waiting for.

A compact vigorous grower with a uniform growing habit and attractive light green foliage makes it a most ornamental planting for the garden.

Its pure Lily of the Valley colored flowers measuring 2" - 2½" across, are long lasting with no blemishing as bloom progresses. The distinctive frilled edges of the flower, combined with a most attractive and compact growing habit, makes it the most outstanding Hardy White Evergreen Azalea so far.

We offered this plant last Spring for the first time as extra heavy well branched rooted cuttings at \$1.25 each and we were actually surprised at the reception given it by the trade. A limited number of these plants (bedded one full season by Fall of 1960) are available (subject to a prior sale) at \$1.50 ea. Because of the lower production cost, made possible by an unusual volume sale, we offer the heavy, well branched rooted cuttings again (May 1961 delivery) for the reduced prices as shown:

Desiree R.C.	\$1.00	\$.90	\$.80

RHODODENDRON hybrids.

In an effort to meet the ever increasing demand for our high quality red varieties we are withholding the two year olds from sale this one season only. In token of the nice business we have enjoyed from our many good customers on these beautiful liners and to partially make up for any inconvenience in your lining out program we offer our other varieties at a considerable reduction over the past several seasons. Our crop looks unusually fine this year, in fact many of the rose-lilac varieties were equivalent to the ordinary 12-15" grade by July 1. These are truly unusual for either lining out or canning for immediate sale. We offer the following varieties at prices shown: CUNNINGHAM white, CATAWBIENSE ALBUM white, CATAWBIENSE GRANDIFLORUM lilac, ENGLISH ROSEUM rose lilac, LEE'S DARK PURPLE, PARSONS GLORIOSUM rose lilac, PURPLE SPLENDOR, ROSEUM ELEGANS rose lilac, ROSEUM SUPERBUM rose lilac.

Nursericans and Art Pots

We are an accredited distributor for Lerio Nursericans, Keiding Art Pots and Super Asphalt Pots. The former are metal cans of three sizes painted green with a push out bottom and one size of solid bottom cans painted aluminum carrying prices as shown below. The Keiding pots are of heavy pressed and molded paper and are available in a number of sizes. They are in test at our own nursery but claims for their usefulness as containers for potted shrubs, trees, roses, etc., vary from six to ten months on top of the ground. Asphalt pots are of comparable grade to several other types now available.
